

ORANGE COUNTY BEEKEEPERS ASSOCIATION

presents...

Beekeeping 401

“What To Expect With Your New Colony”

Come, join us and experience this four-hour class. You will learn that after having a new bee package, there is a lot to do and see. Caring for your first colony is very important. Being able to recognize pollen, nectar, honey and as well, being able to see eggs, larvae and capped brood is essential to the survival of your colony. Developing good beekeeping habits early and anticipating what is coming, will give you a heads up to make good decisions with your colony.

You will also be making sugar syrup & pollen patties in class that you can take home with you!

WHEN: Sunday, May 14th, 2023

10:00am - 2:00pm

WHERE: OC Fair - Centennial Farm,
Silo Building,

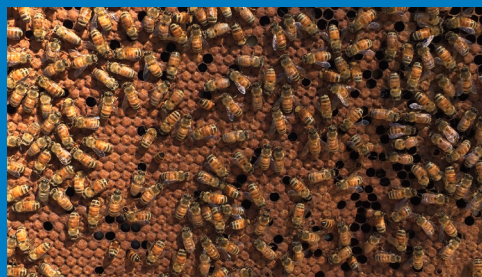

Main Fair Entrance

88 Fair Drive

Costa Mesa, CA 92626
